ROACH'S RECORD.

No Open Developments in the Proposed Investigation.

THE LONG-PENDING RUSSIAN TREATY.

Enduring Mexican Lotteries—Important Questions to be Decided—A Charm Against Fire, Flood or Field—More Heads to Fall.

The Proposed Investigation into the Record of Senator Roach.

WASHINGTON, March 30.—There were no open developments in the proposed investigation into the record of Senator Roach of North Dakota yesterday.

The matter was a general subject of conversation on the floor of the senate, and so far it does not appear that any lines have yet been strictly drawn, although certain democratic senators privately indulge in some rather harsh criticism of Mr. Roach.

On the other hand a few republican senators say that the governor of North Dakota would certainly appoint a man to succeed Mr. Roach should he resign his seat or be forced out, and that if there is any capital to be made out of the Roach case it can, perhaps, more effectively be done by his presence in the senate as a democratic senator than by his withdrawal.

If there was any intention to press the case it was defeated by calling up the Mistle case in the senate yesterday.

Senator Hoar said he could not tell just when he would call up the investigation resolution, but he supposed it would be within a few days. The probable course of the matter in the senate will be referred to the committee on privileges and elections, and that committee will decide whether there is sufficient ground for an investigation, and report to the senate its findings. This will be preliminary to the investigation proper; if the committee decide to hold one in some quarters there is talk of extending the scope of the resolution to include charges made heretofore against other senators.

In this case, which is the other hand, some strong partisans of that faith threaten that if this course is pursued they will cause an investigation of the circumstances by which Mr. Roach was elected by the last legislature, which they asserted will not bear scrutiny.

Altogether the feeling which is very uncomfortable on both sides, has been made less so by Mr. Roach's implied threat, and conservative senators are deprecating the intimation of the subject at this time in any case.

THE LONG-PENDING RUSSIAN TREATY.

WASHINGTON, March 30.—The slowness with which the senate can act when it is so inclined and particularly in regard to affairs of state, is manifested in the matter of the Russian treaty.

This treaty was negotiated by Mr. Bayard as secretary of state and was sent to the senate by Mr. Cleveland during his previous term. After hanging fire several years and being very materially changed and modified it was introduced by Mr. Harrison during the closing months of Mr. Harrison's administration.

So much criticism has been directed against the treaty that it has been created among the senators favorable to its publication, so that it might show for itself what it is intended to be. In this connection it should be stated that the treaty has been published, coincided, and some days ago a resolution was introduced in executive session authorizing the removal of the treaty from the executive to the committee on foreign relations.

Out of respect to the committee on foreign relations the resolution was referred to it for action. No report has yet been made. The committee held a meeting yesterday morning, but it is understood that while being favorable to the purpose intended by the resolution were unable to agree upon a favorable report by reason of disagreements relative to the correspondence accompanying the treaty.

A well known senator, who is prominent on account of his love of fair play and general humanitarian legislation, stated yesterday morning that when published the Russian treaty would be found to be neither more nor less objectionable than several other treaties that have been in operation for some years. The criticism that has been heard is due to a conception of the effect of the treaty based upon a first extract that appeared in a sensational publication when the treaty was first sent to the senate and which objections have been made, it is believed that the treaty will be well received.

Mexican Swindling Lotteries Being Suppressed.

WASHINGTON, March 30.—According to official advice the traffic in tickets of Mexican lotteries which has recently assumed large proportions in this country is to a great extent a fraud upon the public.

The following transaction in the Diario with reference to the sale of the 8th last, under the head, "A serious abuse, furnished to the United States by the Mexican legation in Washington gives some information of interest and value.

There has been official response before the department of the interior to the neighboring republic to the effect that the Mexican government is to be held responsible for the sale of the 8th last, under the head, "A serious abuse, furnished to the United States by the Mexican legation in Washington gives some information of interest and value.

WHISKY AND FRAUD.

The Warehouse Receipts' Sensation at Louisville Growing.

COOLNESS OF THE SUSPECTED FORGER.

Who, With the Penitentiary Staring Him in the Face, Asserts His Innocence and Awaits the Issue—Under Surveillance.

LOUISVILLE, Ky., March 30.—The sensation arising from the forgery of warehouse receipts here grows steadily and recalls vividly the Buchanan and Payne and Wiley cases of a year ago.

There are two questions which remain undisturbed of an appeal from Secretary Wiley's decision. One is, whether, under the circumstances, the right to file a map showing the general route of the road is exhausted when the company has filed one such map, and a withdrawal of the same is not a violation of the law.

These are important questions and the secretary is determined that they shall be promptly decided.

THE BUCHANAN CASE.

Third Day of the Doctor's Trial for Wife Murder.

NEW YORK, March 30.—This was the third day of the trial of Dr. Robert W. Buchanan for the murder of his second wife, by poison in April of last year.

The examination of the witness Macomber continued the cross examination of the witness Macomber.

Did Dr. Buchanan ever make any threat of bodily harm against his wife? This was asked.

"Only once, was the reply, 'and that when the doctor was under the influence of liquor.'"

"Did he ever say to you, 'I will kill you'?" asked the doctor.

"No, sir," was the reply.

DAILY REPUBLICAN.

Published at the Post Office at Decatur, Illinois
under special license.

THURSDAY EVE., MAR. 30, 1893.

It is said the president has decided to convene congress in special session in September or October to take up the tariff question.

The Labor Bulletin is rapidly forging its way to first place in political circles and political independent journalism in Decatur.

The Republicans in the United States senate are not disposed to allow the Democrats to break the precedent in the senate by appointing or electing the clerk and other employees until the new congress convenes. The Democrats are mighty anxious on the other hand to have the officers as soon as they can get them, precedent or no precedent.

There is something that makes a Democratic boss tired up by the people themselves. That is what makes the Review so weary and leads it to cry out, "down the gang." To illustrate the honesty of the Review in raising this cry it is only necessary to refer to the fact that it is enthusiastically in favor of Carter B. Harrison's election in Chicago.

(Gov. W. J. Norcross, of Georgia, is considered the most religious governor in the Union. He is a regular attendant at church and Sunday school, a prominent figure in Baptist conventions, and other denominational gatherings, frequently lecturing at the Y. M. C. A. meetings in Atlanta, and devotes much of his time and personal attention to charitable work. This is better than hunting ducks on Sunday as the Illinois governor does.)

Wann Special Envoy Blount reaches Honolulu he will discover that the United States does not want Hawaii Japan will willingly take it. Two Japanese war ships are ready for an opportunity that will open the way for Japanese protection. It is beginning to look as if almost any "Jap" is as good a diplomat as either Cleveland or Garfield. The Jap wants Hawaii. The two Washington statesmen don't want it because the revolution was not timed to suit the Democratic party.

Representative Paddock has introduced a bill making it a feasible offense to exhibit human beings, such as "Jo Jo," the dog-faced man, the living skeleton, the Chinese man, the tattooed woman, the "Oleander beauty," and so on. This house some light on the question: "Is the world going better?" and the introduction of the bill gives evidence of the fact that our civilization is on the rise. It used to be true that the only show bill introduced in the Illinois legislature were bills requiring shows to exhibit what they advertise.

There are 85,000 tons of broomcorn made up into brooms every year in this country. One ton of corn makes from 50 to 100 dozen brooms. It requires the daily labor of 6,000 persons to keep the people in brooms. Many of those who make brooms are blind, and yet, in spite of the latter fact, and the fact that the manufacture of brooms is a considerable industry in this country, the Illinois legislative committee are getting on the verge of voting a bill to keep the people in brooms with free labor, in spite of Governor Altgeld's promise that he would not keep prison labor at work in competition with free labor.

Miss Mary Marvin, a spinster who died at Morrisville, Ind., recently, at the advanced age of 104 years, was remarkable among women for the fact that for seventy-five years she remained true to the memory of her deceased lover. She was betrothed to Nicholas Hayes of Baltimore, and the wedding day was set for October 3, 1818. On Oct. 4 the young man died. So warm did Miss Marvin keep her affection for her dead affianced that even when she became an old woman the tears would trickle down her wrinkled face as she talked about him. Miss Marvin was the oldest member of the Methodist Episcopal church in Indiana, and probably the oldest maiden in the United States.

Congressman Allen, of Mississippi, alleges that Cleveland made the following statement to him:
A great many men are applying for office upon the strength of work done for me. They were prominent in the state conventions, went to Chicago and labored faithfully there. Of course I am grateful to them, but you will readily see that I cannot appoint them. They are very faithful that they were no use to me in any way. I am sorry to hear that they are so numerous in your party. I am sorry to hear that they are so numerous in your party. I am sorry to hear that they are so numerous in your party.

This is a remarkable position for a man elected as a party man, and calls for an explanation of the Greenback appointment. If Greenback was not appointed solely because he was voted for Cleveland, what was he appointed for? But perhaps the new rule only applies to the common herd.

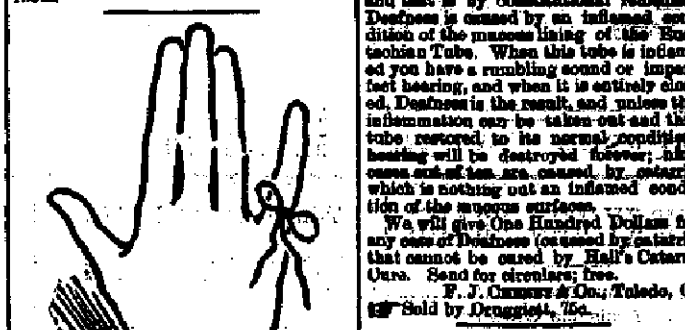

Tax is very cheap also the Dealer Review could not be induced to throw such valuable information to the winds as the following:

The Democratic candidates on the Republican ticket were nominated because they were men fit for the office. The Republican candidates were nominated because they were men fit for the office. The Republican candidates were nominated because they were men fit for the office.

What? Of course it is cheap, but it is the sort of assumption that the outside world is apt to make. It is well known that the Republican township ticket was created by the best attended Republican primaries ever known to Decatur. The Democratic ticket was made in private by not to exceed a half-dozen bosses, and when the job was set out to the primary the result was that in many precincts it was necessary to look about to get people enough to organize them. The Republicans in the Republican township ticket were nominated because they were men fit for the office.

As to the place of those on the ticket for the place for which they are candidates, the Republican ticket is just as

much better than the Democratic ticket as the work of the people is better than the work of a few bosses done in a back room.

SOMETHING TO REMEMBER.

If you're a weak or ailing woman—that there's only one medicine so sure to help you that it can be guaranteed. It's Dr. Pierce's Favorite Prescription. In building up overworked, feeble, delicate women, or in any "female complaint," or weakness, it is ever found to benefit or cure, you have your money back. It's an invigorating, restorative tonic, a soothing and strengthening uricemic, and a safe and certain remedy for women's ailments. It regulates and promotes all the proper functions of the digestive system, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores health and strength.

In all the chronic weakness and disorders that afflict women, it is guaranteed to benefit or cure, or the money is refunded. Nothing else can be as cheap. If you get it, you pay only for the good you get.

It has been said of Edward B. White, the new Associate Justice of the Supreme Court, that he knows as much about the law of the land as his father, Prof. Watson, of Yale, knows about the law of language in the country is said.

ROACH'S RECORD.

No Open Developments in the Proposed Investigation.

THE LONG-PENDING RUSSIAN TREATY.

Swindling Mexican Lotteries—Important Questions to be Decided—A Charm Against Fire, Flood or Field—More Heads to Fall.

The Proposed Investigation into the Record of Senator Roach.

WASHINGTON, March 30.—There were no open developments in the proposed investigation into the record of Senator Roach, of North Dakota, yesterday. The matter was a general subject of conversation on the floor of the senate, and so far it does not appear that party lines have been drawn, although certain democratic senators privately indulge in some harsh criticism of Mr. Roach's course, and insist that he is animated by political feeling and is seeking to accomplish some party advantage by passing his resolution.

On the other hand, a few republican senators say that the governor of North Dakota would certainly appoint a democrat to succeed Mr. Roach, should he resign his seat or be forced out, and that if there is any capital to be made out of the Roach case it can, perhaps, more effectively be done by his presence in the senate as a democratic senator than by his withdrawal.

If there was any intention to press the case it was defeated by calling up the hostile case in the senate yesterday.

Senator Hoar said he could not tell just when he would call up the investigation resolution, but he supposed it would be within a few days. The probable course of the matter is that the resolution will be referred to the committee on privileges and elections, and that committee will decide whether there is sufficient ground for an investigation, and report to the senate its findings. This will be preliminary to the investigation proper, if the senate shall decide to hold one.

In some quarters there is talk of extending the scope of the resolution to include charges made heretofore against other senators—republicans in this case—while, on the other hand, some strong partisans of that faith threaten that if this course is pursued they will cause an investigation of the circumstances by which Mr. Roach was elected by the last legislature, which, they asserted, will not bear scrutiny. Altogether the feeling, which is very unusual on both sides, has been made no less so by Mr. Gorman's implied threat, and conservative senators are deprecating the initiation of the subject at this time in any shape.

The Long-Pending Russian Treaty.

WASHINGTON, March 30.—The slow movement with which the senate has been dealing with the Russian treaty, when it is so inclined and particularly in regard to affairs of state, is manifested in the matter of the Russian treaty. This treaty was negotiated by Mr. Baidaroff, secretary of the Russian legation, and was sent to the senate by Mr. Cleveland during his previous term. After hanging fire several years and being very materially changed and modified, it was ratified by the senate during the closing months of Mr. Harrison's administration.

So much criticism has been directed against the convention that a sentiment was created among the senators favorable to its withdrawal. It was intended to show for itself what it was intended to be. In this view the state department, as has been published, coincided, and some days ago a resolution was introduced in executive session authorizing the removal of the treaty from the calendar. Out of respect to the committee on foreign relations the resolution was referred to it for action. No report has yet been made. The committee held a meeting yesterday morning, but it is understood that while being favorable to the purpose intended by the resolution were unable to agree upon a favorable report by reason of disagreements relative to the correspondence accompanying the convention.

A well-known senator, who is prominent on account of his love of fair play and general humanitarian legislation, stated yesterday morning that when published the Russian treaty would be found to be neither more nor less objectionable than several other treaties that have been in operation for some years. The criticism that has been heard is due, he says, to a conception of the effect of the instrument based upon garbled extracts that appeared in a surreptitious publication when the treaty was first sent to the senate, and which objections now made would, if made then, have been timely and well founded.

Mexican Swindling Lotteries Doing Business in This Country.

WASHINGTON, March 30.—According to official advice the traffic in tickets of Mexican lotteries which has recently assumed large proportions in this country is to a great extent a fraud upon the purchasers. The following transaction was reported by the United States consul at Mexico, under the name of "A serious abuse," furnished to the United Press by the Mexican legation in Washington, gives some information of interest and value.

There has been a long history of the department of the interior a series of abuses which have been perpetrated in the neighboring republic to the detriment of the good name and respectability of the Mexican government. The abuse is as follows: For the last few months there have been in the United States quite a number of enterprises offering to sell tickets of the good name and respectability of the Mexican government. The Warehouse Receipts' Sensation at Louisville Growing.

COOLNESS OF THE SUSPECTED FORGER.

Who, With the Penitentiary Staring Him in the Face, Asserts His Innocence and Awaits the Issue—Under Surveillance.

LOUISVILLE, Ky., March 30.—The sensation arising from the forgery of warehouse receipts here grows steadily and recumbently the Buchanan and Payne and Wiley cases of nine years ago.

It is said that the man who is now being held in the city at a late hour last night, and declared his complete innocence. THE MISSING LINK. In the Beth O. Williams Murder Case Furnished by a Woman.

St. Louis, March 30.—As a result of the police investigation into the death of Beth O. Williams, the sewing machine agent who died at the City hospital on March 17 from the effects of injuries received three days before by being beaten at Eighth and Pine streets by three men, the missing link of evidence needed to fasten the crime on his murderers has been found. It was furnished by a young woman whose name the police are not yet ready to disclose, but whose name is a nature as to warrant Assistant Police Commissioner Reed in issuing an order for the arrest of Arthur E. Furber, the Olive street saloon-keeper; Martin C. Gossell, the bartender; and Edward Waggoner, a bookkeeper for the Mermel & Seccord jewelry Co. and a son of a member of the undertaking firm of Smithers & Waggoner.

The three men were taken into custody at 2 o'clock last night and occupy cells in the Four Court charged with manslaughter in the fourth degree.

A TABOOR SUBJECT. Great Excitement Over the Statutory Lottery in Springfield.

SPRINGFIELD, O., March 30.—Intense excitement that they at any time show itself in violence, exists here over the Statutory Lottery. The feeling is so high that the board of public affairs refused to allow the couple any further use of the city hall, complaint being made by a large number of tax-paying Catholics. A number of them went to the city hall and held a meeting, and the police were called out to keep the peace.

The sensation has been further increased by the organization of an anti-statutory lottery league, which has been organized in the First Baptist church, and is criticizing Mayor Burnett, whom he holds responsible for the action of the board of public affairs, advised his members to vote the republican ticket this spring.

ENDAVOR GUESTS OF NOTE.

They will be at the World's Fair During the Summer.

Many of the hundreds of Christian Endeavor people of Decatur and Macon county have arranged to secure accommodations during the World's Fair at the big Hotel Endeavor, located on the beach at the corner of Seventy-fifth street and Bond avenue. In shape and size the hotel is similar to that of the Grand Union Hotel at Saratoga Springs, N. Y. Mr. Holdgate, state president, is the manager of the establishment. Visitors from Decatur will meet scores of notable workers in the religious field at the hotel.

Thousands of the best people of the land will be there. Some have engaged rooms for the entire period of the fair, others for a few days. The Hotel Endeavor are Rev. E. F. Miller, evangelist, and his wife; Rev. T. DeWitt Talmage, D. D., and wife, of the Brooklyn tabernacle; Rev. Francis E. Clark, D. D., and wife, of Boston; John Willis Beer, of Boston, general secretary of the United Society of Christian Endeavor; William Shaw, of Boston, treasurer of the United Society of Christian Endeavor; Rev. Tunis Hamlin, D. D., of Washington, D. C., pastor of the Church of the Covenant, of which President Harrison and family are members; Rev. David James Burrell, of New York; Rev. W. L. Taylor, of Cleveland, O.; Rev. B. Taylor, D. D., and family, of New York; Rev. W. L. Taylor, D. D., and wife, of Minneapolis; Mrs. D. D. Sankley, of New York; Rev. Geo. H. Wells, D. D., of Minneapolis; Mrs. W. F. Crafts, of Pittsburgh, and scores of other prominent clergymen and distinguished laymen who will take the Hotel Endeavor as their headquarters during the coming season.

POLITICAL NOTES.

The Democratic ward primaries will be held to-night when the friends of D. C. Moffitt and Harry Scanlan will endeavor to capture the delegates. There is now a sharp division in the Democratic ranks as to which gentleman is the more available candidate for mayor. The convention will be held to-morrow night in the old grand jury room.

Engine Head will not have it all his own way in the Fifth ward for alderman. Frank Johnson wants to sit in the council and will do his best to-night to get down to the council.

On the authority of M. G. (the) it can be stated that I. D. Walker will be the nominee for city attorney. Gray says Walker has made the losing race for that office three times, and that it is but fair that he should have another whack at it. Walker will accept the empty honor at please Gray.

Seymour Campbell, book-keeper at the Hatfield mill, will probably be the nominee for city treasurer.

The Prohibitionists will meet to-night at the W. O. T. U. rooms and nominate a city ticket. It is stated that Thomas A. Eriksen may be the nominee for mayor.

DON'T Forget the Bonds.

Every voter before going to the polls Tuesday ought to read the notice in this paper to the voters concerning the redemption of the bonds of the town of Decatur in 1873 to aid in the building of the Decatur & Monticello Railroad.

These are \$25,000 of these bonds bearing 8 per cent interest. They will become due next September, and will then have to be paid unless the voters next Tuesday vote to refund these bonds. This requires a majority of all the votes cast on that day, and cannot be done on a majority of the votes cast for and against the proposition. This means that the voters must vote on the proposition to refund these bonds. It will not do to overlook the matter or the township may be compelled to pay the bonds at a time when it has made no provision to meet them. All the voter has to do is to put a cross opposite the word "yes" or the word "no" at the bottom of the ticket. All voters should vote yes, as nothing can be gained by voting no. This is a matter that should be urged upon the voter by everybody. It is very important.

IN Greenwood.

A large number of citizens gathered at the family residence, 224 East Eldorado street yesterday afternoon, to attend the funeral of the late Mrs. Henry Kain. The impressive services were conducted by Rev. H. F. Ouel, pastor of Grace M. E. church, assisted by Rev. C. E. Torrey, of the Baptist church. The text from Proverbs, "Her children arise and call her blessed and her husband also he praised her," formed the basis for the appropriate address delivered by Dr. Ouel. There were many beautiful floral offerings. A choir composed of Miss Blanche Ouel, Mrs. Rankie, Sherman McClelland and Will Shellabarger furnished splendid music. The pallbearers were W. J. Wayne, William Traver, Mr. Eichinger, George Easley, Mr. Fell and W. H. Grindley. The burial was at Greenwood cemetery.

Hendricks Elected.

Polls were open yesterday afternoon in the G. A. R. hall for the election of a delegate from the Decatur Unit to the International Typographical Convention to be held in Chicago in June. The vote was A. W. Hendricks 22; Wilbur Hopkin; B. T. Ackerman 7. Hendricks was declared elected. His expenses for a week in Chicago will be paid by the Decatur Union.

A Rumor.

It is rumored that the marriage of ex-Mayor Carter H. Harrison, of Chicago, and Miss Nina Gillett, of Elkhardt, will occur in the near future. Mr. Harrison's visits to the Gillett home have been frequent of late, and they have caused considerable comment. Miss Gillett and her sister, Jessie, are well known here, where they have frequently visited.

Chocolate and Wafer Social.

On Friday evening Progress Rebekah Lodge will give a chocolate and wafer social, interspersed with music, and an amusing allude for the evening's amusement. All members and their friends are invited. The social will be given at the home of Mrs. A. T. Crist, 136 East Jefferson street.

Prof. Vaughn.

Next Tuesday night Prof. Vaughn will give his farewell lecture. Saturday, April 3, will be the last day for examinations. mar23-dlv

UNDER CONVICTION.

Growing Interest in Revival Meetings—The Churches Crowded.

THE morning meeting yesterday was well attended. The interest was great, and there were some seekers forward. The early evening meeting at 7 o'clock was not largely attended, being mainly composed of those who are working for the success of the meeting. At 7:30 services began in the upper room with a large congregation. Evangelist Miller, a solo and Dr. Fackler read the 34th Psalm. Some time was spent in singing gospel hymns, when the evangelist requested that the people be seated. He asked three questions for his hearers to consider: Where did I come from? What and where am I? Where am I going? He said the Bible was the only book that could answer these questions. It could explain why a man is here, what he is, and where he is going. He was very earnest in his appeal to the unsaved persons in the audience; without an open confession the sinner must remain in total darkness. He spoke of death-bed repentance, and does not believe in them. Statistics prove that out of 1,000 such instances, where the sinner again returned home, only 100 of them remained true to the vows made on a sick bed. At the conclusion of his exhortation he sang in a very effective way, "Those Beautiful Hands," bringing back to many minds the memory of mother. Several persons went forward, completely overcome by their feelings.

Services again to-night at 7:30 in the audience room.

D. B. REVIVAL.

A large congregation assembled at an early hour at the U. B. church last night and engaged for about twenty minutes most enthusiastically in a song and prayer service, followed by a period of about ten minutes of testimony, in which three times that number rendered testimony. Just before the sermon Mrs. Little sang a solo by request, entitled, "He Is Just the Same To-day," which was rendered most beautifully. This song is doubly dear to every United Brethren, as it is the composition of the late Rev. Isaiah Baltzel. Rev. Little selected for his text Ezekiel 36:25-27, from which he preached a sermon, which, for clearness of thought and manner of delivery, surpassed any preceding sermon he has preached since he came to Decatur. At the first call there were three persons present themselves at the altar for prayer and were converted, after which a second invitation was given for persons to manifest a desire to seek the blessing of God. Nine arose, five of whom came to the altar, and three of these were converted, making six in all. It can truthfully be said that the meetings are growing in interest and power. There will be meeting to-night at 7:30 o'clock. Rev. Little's sermon to-night will be "The Way to God."

CHRISTIAN OUTLOOK.

Another large and attentive audience assembled at the Christian church last night to listen to a masterly discourse by Elder Cobb from the text, "Lord teach us to pray as John also taught his disciples to pray." He dwelt mainly upon the importance of prayer by every child of Christ for the salvation of their souls, and that when a church was praying church it was a very matter to convert its neighbors and friends. They were all admonished to begin now if they never had, in earnest, to pray for the conversion of their husbands, wives and friends, and that God would bless them. Subject to-night: "He calleth you." Services begin at 7:30.

Trying to Locate the Show.

How Lafayette Park and other members of the Illinois board of agriculture are in East St. Louis at the invitation of Mayor Stephens and the National Stock Yards company, for the purpose of arranging for a stock show. The board decided to hold an exhibition of that character at some point in Illinois during the fall season, and as East St. Louis is the terminus of many railroads, Mayor Stephens suggested that it be held there. It located there the intention is to erect a fine exhibition place at the National Stock Yards. Why couldn't Decatur try for such a show? We are in the center of a great stock-raising country.

May Go Hard with Him.

Honor Walker was taken to Bloomington last evening by Sheriff Bishop, to answer a charge of assault to kill or do bodily injury. Speaking of the arrest the Sheriff says: "Young Walker is one of the fellows who slugged Willie Street as he was going home one evening, and he was one of the young things instead of Street. His partner, young Grooms, was sent to Joliet a few days ago, and it is more than likely that Walker will follow."

Baptist Services.

On Easter Sunday, April 2, Deamond Commandery No. 9, Knights Templar, will attend divine services in a body at the Presbyterian church. The address will be delivered by the pastor, Rev. W. H. Fackler, and services will begin at 10:45 a. m. At night there will be an Easter song service. Miss Anna Van Stone of Toledo, Ohio, will assist the choir morning and evening.

CROWDED FOR TWO HOURS.

A Veritable Crush at the Linn & Scurage Reception.

The Linn & Scurage establishment which has been thronged, by visitors during the past few days, was converted into a great exposition hall last evening, and the doors thrown open that the people might pass through and view the display at night, and at the same time enjoy the concert given by the Opera Orchestra. Long before 8 o'clock the streets and walks were crowded by people eager to enter. Policemen had to be engaged to see that in the rush no one was injured. Promptly at 8 the doors were opened and the people filed in until every aisle was packed shoulder to shoulder, and it was impossible to find a single inch of standing room anywhere for the late arrivals who appeared at the entrance. Under the circumstances it was very difficult for anybody to secure a satisfactory inspection of the beautiful goods which were tastefully displayed upon the counters and in the showcases. Goods placed at an elevation were observed and admired by the welcome guests of the evening. Only those nearest the counters could see the articles on the counters. Salesmen and saleswomen with members of the dry goods company welcomed everybody, but 10 who got into the crush, after they got 10 feet from the door, were anxious to escape, and seemed to get out at the first opportunity. Side doors were opened and quite a number of people who remained were better enabled to view the handsome spring goods. The orchestra was placed in the oak department overhead, and all of the selections in the program with a few extra were played.

It was a great night for Linn & Scurage, and reminded the visitor of one of the big nights at the St. Louis exposition hall.

"The Fire Patrol."

"The Fire Patrol" is the title of the latest melodrama, which is the offering at the Grand Monday evening, April 3. In their search after realistic effects writers of melodrama have given us tanks without number, real fire engines, buzz saws, pile drivers, etc., etc., until the field would seem to be well exhausted, but in "The Fire Patrol" we are promised a view of the interior of a steamship, such as are seen in the numerous one-act plays in full operation. In addition, as the title of the play indicates, we shall see a genuine fire-pistol wagon, horse, etc., doing their full duty at the proper moment. Criticism of the play has been very generous. In New York city, where it was lately produced, the press pronounced it a "hit." The play is said to be an exciting and well-constructed melodrama with several very strong mechanical effects that are distinct novelties, and bearing all the indications of being a financial bonanza of large proportions.

The Old Homestead.

Denman Thompson's famous, home-like drama, "The Old Homestead," which loses nothing by repetition during each season's amusements, is again to be the attraction at the Grand on Friday evening, and although the play has been seen many times and time again, it seemingly gains in popularity and public favor with every visit. Last season the play was accorded one of the largest financial greetings, and it is to be believed, one will look very hard to find a vacant seat during its coming engagement. The cast of characters is the same as when seen here before, and thus long co-operation should guarantee a realistic portrayal.

All who like simple goodness, unpretentious happiness, wit and fun, should see "The Old Homestead." The play and company were handled in such generous terms of praise and endorsement by the local press of this city at their last appearance that it is unnecessary to say more now than that it is the only one "Old Homestead."

Vote to Refund.

The first thing every voter should do next Tuesday when he gets his ticket and goes into the voting booth, is to look at the bottom of the ticket and put an x in the square opposite the word "yes" in the proposition to refund the bonds issued in 1873 to the Decatur & Monticello Railroad company. These bonds will be due in September and cannot be refunded unless a majority of all the people who vote Tuesday vote for refunding bonds. This the voter can do and save taxes by putting an x after the word "yes." Don't forget it.

Rheumatism Quickly Cured.

Three days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from the same Lambert, of New Brunswick, Ill.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day, and would insist on every one who is afflicted with that terrible disease, to use Chamberlain's Pain Balm and get well at once." 50 cent bottles for sale by W. F. Will Mark their Position at School.

The survivors of the 41st Illinois Infantry who are going with the Illinois excursion, will take with them a marble slab, to mark the position held by their regiment on Sunday at the Shiloh battle near the Bell House, at the peach orchard, where the 41st Illinois, with Gen. Hurlbut's Division, held the enemy in check for six hours, and where they lost 100 men, including the gallant Col. Ansel Tupper of Decatur, and near where Gen. Albert Sidney Johnston fell while he was leading a brigade against the 29th, 41st and 43rd Illinois Infantry. The excursion leaves Monticello and Decatur Tuesday, and will reach the battlefield on Thursday the 6th and hold anniversary exercises. Decatur, Monticello and other cities will be well represented.

PERFECT HARMONY.

Contractor Moses and His Relations with the Building Committee.

Contractor Moses of Chicago, who is about to turn the new \$50,000 court house over to Mason county, completed and ready for occupancy, may return to Chicago to-morrow night, to personally superintend the work now in progress on the \$200,000 criminal court building in that city.

In a Decatur morning paper to-day appeared a string of disparaging remarks on the county building and the architect, alleged to have been made by Mr. Moses—remarks not at all complimentary to the judgment of the building committee nor to the supervising architect. Mr. Moses, to a Republican reporter, entered a positive and sweeping denial to all the assertions alluded to. At no time and at no place has he ever criticized the building committee or the architect. His relations with all parties connected with the work have been uniformly pleasant and agreeable. There has been no friction or disagreement anywhere at any time; but on the other hand no one has had cause for complaint. Mr. Moses added that Mason county can be congratulated upon securing a fine court house, which could not be built at a fair profit for less than \$125,000. As it stands to-day it is well worth that money. The only conversation Mr. Moses ever had in a general way about the court house occurred last Friday evening in the presence of Supervisor May and Archibald, Brookhaven. He then had something to say about vaults and air chambers, but his remarks had no reference to the Decatur building. They referred wholly to another building in a distant city. Mr. Moses wants it understood that in no sense has he any fault to find with the Decatur building, and no complaint to register against the building committee or the architect.

State Fair Meeting.

The gentlemen appointed to look after Decatur's interests in the permanent location of the state fair, held a meeting last evening at the council rooms and took necessary action in the appointment of active committees, who are now at work. It is understood that the fair bill now before the legislature will come up for action next week, and that Deatur and Springfield will endeavor to have the fair located by the legislature. If that is to be the course pursued, it is asserted that Decatur will have no show for the fair. It will be the business of Decatur to defeat that plan and have the location duty referred to the state board of agriculture. It will take hard work to accomplish this. W. O. Jones, B. K. Dwyer, S. W. Jones, S. S. Jack, D. W. Brennan and two or three other gentlemen will go to Springfield next week and do their level best to prevent the legislature from locating the fair. S. S. Jack, S. W. Jones and Sullivan Burgess will prepare a special map of Decatur and its railroads to be used by the lobbying committee, and W. O. Jones and J. M. Cloney will prepare necessary literature in the interest of Decatur.

To Pass West Eldorado Street.

A petition is being circulated among the property owners on West Eldorado street from Monroe street to the railroad, asking the city council to grade that street, pave it to the railroad and to remove the dirt from under the tracks and continue the paving to the west side to the gravel road. This will then make a splendid thoroughfare to the city, and is heartily commended by all the residents in that portion of the city. The land so lies at this place that it will not require much cutting except under the track. In this way the danger of a railway crossing is overcome.

Will of Dr. Carr.

In the county court to-day the last will of the late Dr. Robert F. Carr, who died at Argenta, was admitted to probate. The executrix is the widow, Mrs. Emily A. Carr, bond \$20,000 with Anna Brucker, Louis A. Bricker, Edgar D. Carr, Andrew Wilson and Samuel Gerber as sureties. All of the property is bequeathed to the widow except five acres which is given to District 2 for school purposes and three lots in Argenta to be used for a public grove. The will was made Dec. 28, 1891, and was witnessed by J. H. Milbolland and S. W. Whitehouse.

Want a Lateral.

The residents of the northwestern portion of the city to the south of the Washburn railroad are signing a petition to the city council, begging them to lay a lateral connecting with the Union street sewer. Cerro Gordo street, thence south on Monroe to Eldorado, west on Eldorado to Mercer, south on Mercer to North, and west on North to the sewer limits. This is to be laid according to the Williams survey.

Death of Mrs. Catherine Jones.

Mrs. Catherine A. Jones died this morning at 11:35 o'clock of the bone of her son-in-law, Thomas C. Kitchon, No. 1105 East Orchard street, of old age and dropsy, aged 79 years. The deceased was the mother of Mrs. T. C. Kitchon, Thomas V. Jones, and was a lady highly respected by all who knew her. The time of the funeral will be announced later.

Death of Mrs. Maynard.

Mrs. Isabelle Maynard died yesterday afternoon at 1:30 o'clock at her home on West Eldorado street of nervous prostration, aged 63 years and 3 months. Deceased had been sick but five days. She leaves two daughters, Mrs. John Watkins of this city, and Miss Belle Maynard, of Chicago.

The funeral will take place to-morrow morning.

Want a Bonus.

The proprietors of the Litchfield mill which was destroyed a week ago say the rebuilding of the mill will depend altogether with the people of that place. It is supposed they will make the rebuilding of the mill contingent upon the payment of a healthy bonus.

Sales of Real Estate.

Frank T. Loring, who is a student at the Christian Brothers' College at St. Louis, is home on a vacation trip, and is visiting his relatives, Mr. and Mrs. Geo. V. Loring, at 801 East Wood street.

Frank has grown to be quite a young man, and is advancing rapidly in his studies.

Rev. A. C. Cobb, who is now conducting a successful protracted meeting at the Christian church, is a guest of F. A. Lefors and family. Rev. Cobb is the popular minister of the Christian church at Springfield. It is understood that his people like him so well that they will at an early date voluntarily increase his salary.

Services at St. John's.

The Easter offering at St. John's church, which have been so generous during recent years, is to be applied this year to the object the contributor desires. It is in no sense a church subscription and will bear no name. The special offering envelope is to have nothing upon its face except the amount within and the object to which the offering is to be given, or the objects may not be named and the vestry will place the offering where it is most needed. The services at St. John's church have been well attended, the prisoners manifesting great interest in a scheme to organize a work being earnestly observed and large congregations attended the chapel twice each day. To-morrow is Good Friday. Services at 10:30 a. m. and 8 p. m. Saturday being Easter, Holy Baptism will be administered at 4:30 p. m. The Easter program, which is of the highest musical character and very elaborate will be announced later. Chevalier Bayard and Count de Leon, knights of Pythias, together with the Uniform Rank, will attend divine service at St. John's church Sunday evening.

Let It Come.

W. J. Kurtz has been in the city for two days trying to get local capitalists interested in a scheme to organize a new telephone company. He comes from Chicago, and claims to have a telephone system that uses an automatic exchange, and is a very good business proposition. He would put up wire and send instruments much as the Central Union company does. Mr. Kurtz has a number of local capitalists, and thinks he has received encouragement which will ultimately lead to the organization of a company. He left last night for Chicago, to see Mr. J. M. Clark, a few days. He was accompanied by attorneys J. M. Cloney and W. H. Black.

Mr. Mackay's Wound.

SAN FRANCISCO, March 30.—At a meeting of the grand jury yesterday afternoon Dr. Keeney was called as a witness to testify as to Mr. Mackay's condition and the nature of his wound. It is said Rippey will be indicted for assault with intent to kill, and that he will not have a preliminary trial in the police court. Rippey, when told about the possible indictment, said he was sane, and wanted to be speedily tried.

Merit and Skill Rewarded.

LONDON, March 30.—The directors of the Steamship Co. have presented handsome checks to the engineers and officers of the steamship Umbria in recognition of their skill in mending her broken shaft at sea and bringing her into port last December. The subscription of the underwriters for the same purpose amounted to \$2,200.

Arrest of a Bank Cashier.

NASHVILLE, Tenn., March 30.—On a warrant sworn out by Bank Examiner McKnight, Frank Porterfield, cashier of the Commercial Bank of Nashville, was last night arrested on a charge of making false entries and false statements of the bank's condition. He was released on \$10,000 bond.

A NARROW ESCAPE.

A Bowman Coal Wagon Smashed into Smithereens This Morning.

C. S. Bowman, the well-known drayman, is a lower to-day by one wagon, and if it reports true, the flagman at the Eldorado crossing will be able to explain the particulars. The driver states that he was driving east over the crossing and there were several cars standing half-way across the second track. He was unable to see the third track, and just as the horses had cleared the third track a freight car was run down on that track and struck the wagon square, knocking it into smithereens and badly injuring the team, saying nothing of the miraculous escape of the driver. The gates at this crossing are broken and have been in this shape for some time past. The law requires that the Illinois Central keep the gates in repair. But even if the gates are not in use a flagman is hired to signal at this crossing and bystanders who witnessed the accident state that there was no flagman in sight at that time. Had he been present the accident would have been easily averted. The driver was a nervous fellow and staid with his team and wagon until the team was safe, which was not until the wagon was literally torn to pieces from under him. The accident happened this morning.

Salvation.

The revival meeting at Wykoff's hall, under the auspices of the Free Methodists, still continues in power. Last night's meeting was of the old-fashioned Methodist style. When those seeking salvation came to the altar they were encouraged to pray for themselves. Praying by proxy did not seem to be given any quarter. The altar service resembled that which accompanied early Methodism. One continued volume of prayer was offered until some merged into the glorious liberty of a regenerated state. Conversations by syllogisms did not seem to be recognized as the best method of getting poor lost souls to Christ, and when the last soul at the altar, who was a man past middle life got converted, a regular religious cyclone ensued. Converts and all had to shout; some ran, others jumped, some sang, while others shouted like good fellows. Bro. Christie, the evangelist, says he likes to see souls pray for salvation like blind Bartimeus prayed for his sight, and got converted as clear as Peter's convert at the Beautiful Gate who went into the temple walking, and leaping, and praising God. This people declare that such converts are not easily drawn away to dance halls, theatres, card parties, pool-rooms and other sinful places of amusement.

A Tough Story.

MR. EDITOR.—The boys of Oklahoma and vicinity are becoming quite a nuisance. From kids up to almost voters can be found at the stockyards and other places throwing their dice and shuffling their cards. Only last Sunday one boy won \$5.80, another \$2.45, another 75 or 80 cents, the others all being the losers. Not gambling only, for they have intoxicating drinks and carry concealed weapons. Wednesday evening a quiet, peaceable boy about fifteen years old was on his way to prayer meeting, when to his horror and amazement he was covered with a revolver by a large boy. Here in the outskirts of the city of Decatur cannot one go to church without being molested? These boys are all very well-mannered, reckless, discolored boys, and all have good, respectable parents or guardians, but have slipped out from under their control. I think it is high time for the officers of Decatur to investigate and visit these places, and especially evenings and Sundays. A CITIZEN.
